

Vote yes on Measure A cannabis proposal

Vote yes on Measure A. Measure A addresses large-scale cannabis cultivation to curb its impact on our lands, waters, wildlife, and residents.

Measure A does not increase taxes. It would support small-scale, high-quality cannabis cultivation by our local growers.

Measure A would reduce impacts of cannabis growing on water by prohibiting reliance on streams. Enough water must be stored for cultivation needs or the crop size must be reduced.

I believe we all want a clean, healthy environment and Measure A would help ensure this.

Voting against this sensible and important measure would be like giving our lands and waters away to the highest bidder and getting nothing in return. Let's take care of our county, our people, our streams, rivers, forests, and wildlife by voting yes on Measure A.
